

IMPACT FOUNDATION BANGLADESH

Urgent Appeal for donations for humanitarian projects

IMPACT FOUNDATION BANGLADESH was set up in 1993 as a charitable institution for providing health care services for the prevention of avoidable disability through awarenessbuilding and medical intervention to the poor and marginalised communities of Bangladesh. With this end in view, IMPACT FOUNDATION started raising funds through local and foreign sources. With such help, we have been able to run different humanitarian programmes. We are enclosing a detailed report on our activities through four (04) outlets: 1) FLOATING HOSPITAL JIBON TARI, 2) IMPACT MASUDUL HAQUE MEMORIAL COMMUNITY HEALTH CENTRE, CHUADANGA 3) IMPACT JIBON MELA HOSPITAL COMPLEX, MEHERPUR, 4) IMPACT NURSING INSTITUTE, MEHERPUR.

IMPACT has also started constructing a hundred-bed fully equipped state-of-the-art hospital which is nearing completion. However, IMPACT still needs BDT 93,431,000/- for completion of the first phase i.e up to the 8th floor.

If we can raise this fund within time IMPACT can start functioning as a full-service hospital within the next 3 to 4 months.

We, therefore, urgently appeal to philanthropic individuals and institutions for generous donations either in cash or through the purchase of equipment required. Such donations will be gratefully acknowledged through official letters. If any substantial donors want to get their own names or their parents' on a permanent plaque we can discuss in what manner they want to commemorate their names.

Anwarul Amin
Chairman
IFB Board of Trustees
